Providing Integrity to
Your Hiring Decisions

This brochure is brought to you by QuickBrochures.com©

Get the COMPLETE story, ACCURATELY and OBJECTIVELY.

We GUARANTEE it all within 72 hours.

Accu-Screen provides companies across America with the highest standards of personalized, comprehensive and cost-effective pre-employment screening. Our professionals are highly qualified specialists in the fields of criminal research and integrity verification. We are dedicated to expedient, accurate reporting.

Accu-Screen is the key to safeguarding against negligent hiring lawsuits by making sure that your candidate is fit for the position. Do not make your company liable because you failed to inquire as to your applicant's past history.

Because Accu-Screen works as an independent third party contracting department within your company, we are able to review research collected objectively and completely. Our commitment to you is even backed with a money-back guarantee.

Criminal Record

Accu-Screen obtains criminal conviction records by County and State in accordance with the Fair Credit Reporting Act. Our analysis reveals that over 3% of the individuals we check have a felony record and over 7% have a misdemeanor. With Accu-Screen, you receive criminal dispositions that are clear and easy to read, enabling you to make the right hiring decision.

Driving Record

Accu-Screen obtains driving records from the appropriate Department of Motor Vehicles. An MVR can also verify the applicant's identity. Histories of accidents, speeding tickets, reckless driving, suspended licenses, DUIs and DWIs are reported.

Drug Testing

Accu-Screen is affiliated with a network of national laboratories that provide testing for legal and illegal drug usage. All testing is conducted through NIDA, DOT and HRS certified facilities and meets current Federal and State Drug-Free Workplace requirements. Additionally, Accu-Screen conducts previous employment drug test verifications as required by the FAA and the Department of Transportation.

Social Security Number

Accu-Screen confirms the identity and validity of the number and its issuance by the Social Security Administration. A social security number search can also reveal previous residences that can be cross-referenced with the information supplied by the applicant.

Employment

Our analysis tells us that over 38% of the applications that we process contain at least one falsification by the applicant. Accu-Screen verifies the accuracy of employment history with emphasis placed on past performance, employment periods, positions held, salary, rehire eligibility, and reasons for leaving. In addition, Accu-Screen will determine if the previous employer is still in business and, if not, will take action to verify the employment experience through co-workers, supervisors, past owners and/or the Corporate Commission.

Education

The FBI estimates that over 500,000 people nationwide claim college degrees they never earned. Accu-Screen verifies the applicant's educational qualifications as well as the accreditation of the College or University awarding the degree.

Worker's Compensation

This Information is released in compliance with the Federal Americans with Disabilities Act. It provides a history of the individual's work-related injuries that includes dates of accidents, nature of injuries and if the claim was upheld or denied by the state authority. Worker's Compensation fraud is a multi-billion dollar problem in America.

Professional Licenses & Credentials

Accu-Screen verifies all professional licenses and credentials. This ensures that your prospective employee may legally perform the work required for the position.

Credit Profile

This report will indicate the applicant's existing debt, payment history, judgements, liens, collections and/or bankruptcies. Accu-Screen provides this report in accordance with the Fair Credit Reporting Act.

Mystery Shopper Quality Assurance

Research is conducted by staff members who visit client locations posing as ordinary customers. Employee practices and procedures are observed, documented and summarized in comprehensive detailed reports. These reports provide clients with a full picture of their establishment from the customer's viewpoint, assisting decision makers with their planning of employee training and placement
